

BARNISHA V

Chennai, India | venkatachalambarnisha@gmail.com | [linkedin.com/in/barnisha-venkatachalam-04a8b025b/](https://www.linkedin.com/in/barnisha-venkatachalam-04a8b025b/) | [barnisha03 - GitHub](#) | Phone: +91 9003899349

CAREER OBJECTIVE

A driven and versatile IT professional with strong expertise in Java, Spring Boot, RESTful APIs, React, and MySQL, and hands-on experience in full-stack application development. Skilled in building and integrating enterprise-grade backend and frontend solutions, with exposure to scalable systems and modern development practices.

EDUCATION

SRM IST-Kattankulathur Chennai, India <i>B.Tech., Electronics and Communication Engineering - Cyber Physical Systems</i>	CGPA: 8.81 / 10.0 May 2025
Bharathi Matric Higher Sec School Erode, India <i>Class XII - Tamil Nadu Board of Secondary Education (DGE) · mpc ·</i>	Percentage: 90.95% 2021
Sri Kumaran Matric Higher Sec School Tamil nadu, India <i>Class X - Tamil Nadu Board of Secondary Education (DGE)</i>	Percentage: 92.6% 2021

EXPERIENCE

Standard Chartered Global Business Services <i>Apprentice, Technology</i>	July 2025 – Present Chennai, India
- Working as an Apprentice in Technology, gaining hands-on experience across backend development, databases, and supporting automation-related tasks. - Currently working on a project involving backend configurations and UI-driven workflows using Java and PostgreSQL, focusing on smooth data flow and system integration. - Designed FreeMarker templates, tested REST APIs using Postman, and implemented features such as customer data retrieval based on reference numbers, improving overall data visibility and usability.and integrated IP-based Public. - Address (PA) systems with IP-PBX environments, ensuring seamless system interoperability.	
Vrindavan Telecoms India Pvt Ltd <i>Product Trainee Intern</i>	Aug 2024 – Oct 2024 Chennai, India
- Tested and integrated IP-based Public Address (PA) systems with IP-PBX environments, ensuring seamless system interoperability. - Supported and maintained zonal and emergency communication systems, gaining hands-on exposure to industrial telecommunication infrastructure.	

TRAINING EXPERIENCE

Capgemini <i>Software Trainee Intern</i>	Mar 2025 – Jun 2025 Chennai, India
- Completed hands-on training in developing RESTful APIs using Java, Spring Boot, Hibernate, and MySQL. - Practiced CRUD operations, input validation, and Agile practices, strengthening backend development and API integration skills.	

PROJECTS

Account Closure - WRB ATOM Dec 2025 – Present	
<i>Standard Chartered GBS, Java, PostgreSQL, REST API Development, FreeMarker Templates, Postman Backend Development</i>	
- Workflow & Backend Architecture: Designed and implemented business-critical BPMN workflows, writing custom Java delegate operations to automate complex banking account closure requirements. - Dynamic UI & Data Integration: Configured dynamic UI form structures backed by PostgreSQL, streamlining state management and data persistence across multi-step application layers. - Template-Driven REST APIs: Developed dynamic RESTful API payloads using FreeMarker templates, optimizing data formatting and accelerating server-side rendering for responsive frontend consumption. - Data Accessibility & Testing: Engineered a targeted backend service to retrieve and aggregate customer details by Relationship Number (REL No.), boosting tab-level data visibility and ensuring high system reliability through rigorous Postman validation.	

Digital Supply Chain Tracker

SRM Institute of Science and Technology | Java, Spring Boot, RESTful APIs, MySQL

Full-Stack Web Development

- Designed a flexible 5G antenna for vehicular communication with a focus on Vehicle-to-Infrastructure (V2I) connectivity to support high-speed data transmission.
- Performed electromagnetic simulations, optimized material selection, and enhanced antenna performance to ensure reliable communication in dynamic and high-mobility environments.

Design of MIMO Antenna

SRM Institute of Science and Technology | CST

Antenna Design

- Designed a compact, high-performance dual-band MIMO antenna operating in the 1550–2650 MHz and 3.5 GHz frequency bands.
- Enabled support for multiple wireless standards, including 2G, 3G, 4G, and sub-6 GHz 5G, making the design suitable for modern high-speed communication systems.

AWARDS

Performance Based Scholarship

Oct 2023

SRM University · SRM Institute of Science and Technology

- Awarded a cash prize of 60,000 for achieving a high CGPA in Electronics and Communication Engineering. Recognized for consistent academic excellence and ranked among the top performing students in the department.

TECHNICAL SKILLS

Programming Languages: Java

Web & Backend Development: Spring Boot, RESTful APIs, React.js, HTML, CSS

Databases & Tools: MySQL, PostgreSQL, GitHub, Postman, IntelliJ IDEA, Maven

Networking & Systems: Computer Networking, Telecommunication Systems, IP-PBX, IoT Fundamentals

CERTIFICATES

The Bits and Bytes of Computer Networking - Coursera

Communication Network - NPTEL

Embedded C Programming - AICTE

Introduction to Back-End Developer – Coursera

COMPETITIONS

Smart India Hackathon

Sep 2023

Participant · SRM DEI

FLIGHT'23

Apr 2023

Participant – Madras Institute of Technology

GENESIS'23

Oct 2023

Participant · Sri Ramakrishna Engineering College
